Service Updates

Service update 1: Apologies for the non-availability of this site from the 8th April to 19th May 2020. My hosting company, Vodien, broke IPv6 access when migrating me from Quadra (whom they took over). Took them 6 weeks to resolve the issue. Thankfully IPv6 access is now restored.

Service update 2: Vodien failed again week of 13th October again, with IPv6 access irretrievably broken, and their name servers for my domain unresponsive.
